# ValuesAdvisor

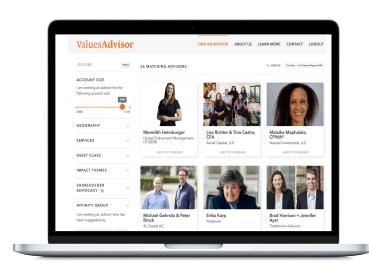

# VA Origin Story

Lisa Renstrom, Founder, Impact Investor & Philanthropist:

- A financial return AND a social return is doable and satisfying.
- Realization was just the first step. Wanted a financial advisor expert in supporting the impact journey.
- Time consuming and tedious research and due diligence friends, online research, contacting firms, and digging into reports.
- Ran DivestInvest. Investors pledged to divest, but said, "My advisor has no idea how to invest fossil free".
- After her personal laborious search -- and having learned of some stellar professionals in the process -- she
  decided to create a resource for people to make it easy to align their money with their values and move money
  to impact.

# What is ValuesAdvisor?

- > Filterable, online platform with a curated collection of financial advisors with impact expertise who help HNW investors align their money with their values.

Participation in ValuesAdvisor is personal to the named Lead Advisor and either the team or firm they lead.

Any number of teams within a larger institution may be listed on ValuesAdvisor if they qualify on all criteria, and have distinct, unique impact offerings and expertise, or the entire firm may be listed if it meets the criteria.
